

Test Certificate

Report number: 28484

for the fountain solution concentrate

Fount 2012

manufactured by

BECA GRAFIC S.A.

The above-mentioned fountain solution concentrate for sheetfed applications was tested by Fogra and meets the specifications of the following press manufacturers:

- Heidelberger Druckmaschinen AG
- manroland Druckmaschinen AG
- Koenig & Bauer AG

This approval certificate expires after 5 years at the 30 September 2019. This certificate confirms that the measured values for the corrosive attack of the aforementioned fountain solution concentrate against specific metal materials are within the specified limits defined in the SOP "How to test the corrosive potential of a fountain solution concentrate" with the current version 07/2011.

This certificate confirms that the fountain solution successfully passed the material resistance test for rubber and plastic materials as defined in the current guideline. This certificate is limited to the tested fountain solution and its formulation as received and described in technical report with above-mentioned number.

The legally binding approval of the above mentioned fountain solution concentrate is electronically published and the regularly updated version of the approval list of the press manufacturer is posted at the site www.fogra.org. This approval terminates if the formulation of the approved product is sold to another manufacturer or vendor or if the origin manufacturer was sold to or acquired by a third party. In case of sale and/or acquisition of the origin manufacturer the approval terminates automatically for all other approved fountain solutions from the portfolio of the original manufacturer.
